**THE BISHOPS ARMS**

# THE BISHOPS ARMS

We at The Bishops Arms are proud to offer a wide range of beverages that we dare to say is one of the largest in Europe. Since 1993 we have been a part of the contribution to new producers, among which many are Swedish microbreweries. We chose the name, The Bishops Arms, to our first pub in Västerås as the location is near the cathedral and the street with the same name, Biskopsgatan. The cosy gastropub became popular already from the beginning. We expand continuously and are 41 proud gastropubs in Sweden. We also run seven Hotel Bishops Arms that are served by the pub and also where you check in. So far we offer hotels in Kiruna, Piteå, Mora, Lund, Strängnäs, Köping and Kristianstad.

## SHORT BEER GUIDE

Beer is an ancient beverage that has kept its popularity for thousands of years. The first Swedish brew was around 400–600 AD. Today's trendy microbreweries can with pride say that their history started in the early Iron Age. Beer is the most consumed beverage with alcohol in the world and also the drink that contains the most categories of flavours. This has been confirmed in the 21 century with the massive interest for beer and gastronomy. Just in Sweden, we have more than 340 breweries, and that is the highest brewery density in the world.

### **Light Lager:**

Is a bottom-fermented beer, often dry with a light to medium flavour. Ideal as a social drink or accompanied with a lighter meal

### **Ale:**

Top fermented, often brown with a medium character. Ideal for meaty stews and pots.

### **Brown Ale:**

Golden brown colour, often with a nutty character. To be enjoyed in combination with a dessert with nuts or a burger.

### **Pale Ale:**

A lighter style of Ale, nowadays with a touch of bitter, but ideal as a thirst quencher

### **IPA:**

A more bitter/more hoppy style of Pale Ale. Many are hazy, with bright notes of citrus

### **APA:**

Initially a very pale, and light hoppy beer. Now resembling IPA, but less hoppy

### **New England IPA:**

Unfiltered IPA, sometimes with added lactose sugar. Rund, fruity with an aromatic base of hops

### **DIPA:**

Double IPA. Higher content of alcohol and bitter. Often

with a distinct sweetness from the alcohol

### **Stout:**

Black and rich. Before always dry, but can nowadays also be sweet. Enjoy to oysters or chocolate desserts

### **Porter:**

Black, sweet and full-bodied. The perfect choice for a chocolate dessert or enjoyed on its own after the meal.

### **Wheat beer:**

Light with a touch of bitter, often cloudy. Great for a warm summers day or with pork dishes.

## SHORT WHISKY GUIDE

We offer a wide range of whisky from many parts of the world even if Scottish whisky is established as the favourite whisky in Sweden. During the past years also Swedish distilleries started to deliver good quality whisky.

### **Highland:**

Often with a sherry cask character and a smooth finish. Glenmorangie and Dalmore are from here.

### **Lowland:**

The Lowland districts produce whiskies with a gentle character, often reminiscent with a palate of grass. Best-known is Auchentoshan

### **Islay:**

Home to the peats, here you recognize famous distilleries such as Ardbeg and Bowmore

### **Campbeltown:**

Scotland's smallest district, but do you need any more if you have Springbank?

### **Islands:**

A common name for whisky from the islands along the coast such as Highland Park

### **Speyside:**

Part of the Highlands, often smooth rounding with an instinctive character from sherry casks. Macallan is the best-known.

### **Bourbon:**

Always distilled in new barrels that add a perfumed aroma. Maker's Mark is a typical bourbon whisky.

### **Blended:**

A balance of flavours with many variations. Famous brands are Famous Grouse and Johnnie Walker

### **Irland:**

A lighter flavoured, smoother and sweeter whisky. Jameson is the best-known
